

3M™ Scotchkote™ Fusion-Bonded Epoxy Coating 134

Scotchkote™ Fusion-Bonded Epoxy Coating 134 is a one part, heat curable epoxy coating that can be custom applied to protect pipelines (external and internal) and a variety of infrastructure components from corrosion.

- Resistant to corrosive soils, hydrocarbons, harsh chemicals and sea water.
- Meets the requirements of AWWA Standard C213 and C550
- Long-term performance history in water, sewage, and other service environments
