

Employment Positions Available at Extreme Coating Solutions (ECS)

Position: Surface Preparation, Blasting Metal Pretreatment – Job Shop in-house only, No outside work

Current Opening: We are a 32-year-old company with long relationships with its employees. Our newest plant employee joined 14-years ago. We are searching for individuals who are interested in joining a company where they can refine their skillsets and continue to grow both professionally and financially. We are a custom job shop that applies primarily fluoropolymer coatings (such as Teflon).

Compensation: Range of \$15 - \$25/hr. based on experience, and other variables.

Benefits: Individual Health, Dental, Vision provided. Plus, 401K match.

Date: October 2022

Location: 5300 East 59th St., Kansas City, MO.

Company: Extreme Coating Solutions, LLC.

Website: www.ecs-ww.com

Number of Openings: 1-2

ECS is a no smoking facility.

RESPONSIBILITIES INCLUDE BUT ARE NOT LIMITED TO:

- We blast with aluminum oxide and mineral medias, glass bead, and walnut media. If you have not blasted with these materials, we can train you. Because Teflon is a thin-film coating, the surface preparation requires our Blasters to be capable of prepping the various metal substrates with a consistent, light blast profile. Ideally, have the experience and knowledge of how to adjust the blasting equipment.
- You must have good and show the ability to combine finesse and speed in your work.
- Masking of parts as required by the clients.
- Shipping/Receiving and forklift operations as needed.
- Packing parts, shrink-wrapping as required.
- Quality inspections of final parts (we provide training) the ability to verify counts and fill out paperwork.
- Maintenance work – general maintenance of facility, equipment.
 - Though not required, welding, grinding, and other metal working skills is a plus.

EDUCATION: High school diploma or nationally recognized accredited equivalent.

QUALIFICATIONS & SKILLS REQUIRED:

- Capable of lifting 40-50 lbs. occasionally.
- Basic math skills (add, subtract, multiply, divide)
- Quality mindset, flexible to learning/working in other areas of the plant as needed.
- Comfortable being held accountable for your quality, responsibilities, attendance/punctuality.
- You should be a person who embraces learning new skills.
- Stable work history with good employment references.
- Excellent attendance record
- HOURS: • Must be available to work onsite for the following shift
 - 8-hour shift (M-F) 6:30 a.m.- 2:30 p.m.
 - Overtime: Must be willing to work overtime occasionally during the week, and perhaps once per month a half day on weekends.
